

Dear FCC:

I am alarmed that the decisions of our nation's broadcast media are being concentrated into the hands of fewer and fewer mega corporations.

Are you folks asleep or something?

Today, Sinclair Broadcast Group is to "require" that its member stations air a blatantly political film before the November 2 election. Is this "fair and balanced"? Is this public service, or is this one-sided partisanship?

I ask that you take a stand today against this form of political misuse of our free airways, and block Sinclair Broadcast Group from their intended air blitz.

Thank you.
